Being built in 2010 the home is in as new condition and features solar hot water system, a huge rain water tank and carries a 6 star energy rating, thanks in part to the fully insulated walls and ceiling. Not only that the owner has positioned the home in a East/West orientation allowing all but one room to have the most desirable Northerly aspect, but all services have been situated to accommodate a swimming pool at a later date that can be positioned in full view of the living room kitchen and patio.

An inspection will be dangerous as this property is well kept, has plenty of features and is right on one of the best beaches in the top end....
